ABOUT ME

Civil Engineer looking to move to the tech sector as a front-end web developer and merge both worlds.

Motivated and adaptable individual with a background in Civil Engineering transitioning into front-end web development. Equipped with proficiency in the fundamental front-end languages, I am committed to learning and applying new technologies to offer intuitive and engaging user experience. With a strong work ethic and an agile approach to working, I am looking forward to contributing to impactful projects as part of a remote internship opportunity.

SKILLS

EDUCATION

Skills Bootcamp in Front-End Web Development
edX
2023 - 2024

MEng master's in civil engineering
University of Bristol
2016 - 2021

EXPERIENCE

Front-End Web Development Bootcamp Participant

EdX in the UK/ Online/ Nov 2023 - March 2024

- Acquired proficiency in HTML, CSS, JavaScript, and React through hands-on projects and exercises.
- Collaborated effectively with peers in virtual environment such as slack, GitHub and discord, fostering communication and agile work.
- Utilised version control with Git and GitHub to manage project repositories and facilitate collaborative coding workflows.
- Deployed web applications using GitHub and Netlify
- Implemented testing methodologies to validate code functionality.

Civil Engineer

Rappor Consultant/ Bristol, UK/ July 2023 - Present

- Regularly collaborate with interdisciplinary teams, including architects and contractors, to coordinate project design requirements.
- Utilise high analytical and problem-solving skills to address varying complex engineering challenges and deliver high-quality results within deadlines.
- Implement innovative solutions to optimise project efficiency and ensure compliance with safety and regulatory standards.
